

ACCEPTED ART FOR STUDENT EXHIBITION

Congratulations Artists, one or more of your pieces were accepted into the Student Exhibition exhibit. It was a very competitive selection with over 67 pieces and 32 artists applying. Our jurors had a very difficult task when choosing the art that would grace the walls of the classroom. Now that you have taken a minute to absorb the news, I want to remind you of the following important instructions you must follow when delivering your artwork.

- Early delivery is accepted only on Sunday February 25 between the hours of 12pm and 3:30pm. You must inform me via email by Friday February 23 that you will be dropping your artwork early. My email is exhibitions@artcentervb.org and we will only accept the pieces from artists that directly informed me. Please do not call the gallery or call me on my phone. You must email so I may alert the gallery you will be dropping off. It is not okay to just show up with your artwork. We need to be respectful of the residents and exhibiting artists that rent space from the Artists Gallery.

- Follow the instructions for wiring your artwork correctly, if not done properly you will be asked to at delivery to address any wiring that does not meet the standards of the gallery. No eye hooks, sawtooth hangers, or strange wiring. The wire must be tight across the back of the frame. Not following instructions could keep your piece from being part of the exhibit even if you were accepted.

- All frames must be free of chips, scratches, dirty mats, dirty glass, or anything that will keep the work from being presented in the most pristine manner.

- Delivery of the artwork is on Tuesday February 27 between 11am – 4pm. There are no deliveries accepted on Mondays, we are closed for business. There are no deliveries accepted on Wednesday, which is the day the artwork is being installed. Prior to installing I go through every piece of artwork and make the final adjustments the night before so our volunteers can focus on creating a beautiful exhibit.

- All artwork that is $\frac{3}{4}$ " and smaller edge must be framed and artwork that is painted on 1" or larger edges must have them painted. For more information about the exhibit here is the link to the prospectus, I urge you to refresh yourselves with our standards. [Student Show '24 \(artcentervb.org\)](http://artcentervb.org)
