

Love Eternally Prevails

Amelia M.

Old Donation School, 6th grade

People rise and fall

In power and in strength

What matters most is love

Without love, there is no purpose

Without purpose, there is no life

There is nothing more powerful than love.

We love because we want to be loved

If we are not loved, we feel useless,

Uselessness should never be felt by anyone,

We are all useful in our own ways,

Make sure to love one another like they are important to you.

If you do not love someone else, how will you love yourself?

Without self-love, there is no point in life.

Love yourself how you should love your friends,

If we do not treasure everyone and everything in life, we won't see beauty

Treasure your life

Treasure your friends and family

Admire nature and life

Do nice things

Do not make life miserable for someone who did not deserve it
