

Litter Everywhere
Ava K.
Old Donation School, 7

Litter here, litter there, litter everywhere

Litter is all around us,
And people don't care.

So let's discuss
The effect of litter on us.

We see it on the streets
We see it on the ground.

We see it all around
We see it on the beach

In the sand at our feet
We see it in the trees

Oh, stop
Please, please, please.

This truth that we are faced with
Is not a myth

No, no
It is here and it is now,
I mean it's right there on the ground.

It doesn't bother some
But who knows what it will become,
As we face the problem of litter.

Let's consider
What will happen
If it gets out of hand.
Will we choose to make a stand
And will you lend a hand
To clean up this land
Of litter.

Or will you let it get out of hand
And not choose to make a stand
And to keep this land
Covered in litter.

It is your choice
To stand or fall
But if you stand

It will be good for us all.
Now if you fall
Who knows what will befall
Humanity.
Oh, the insanity!
So stand with me
And see
If we love the Earth,
And clean it
and I can guarantee it,
You will feel much better
When we can see the trees!
Litter is like a disease
And it can make animals wheeze
So I hope you will agree
To stand with me.
